

Annex no 2

Special rules for ordering coins and coin sets electronically

The Act LIII of 2017 on the prevention of money laundering and the funding of terrorism, states that in order to prevent the funding of terrorism and to prevent money laundering Posta, engaged in the sale of precious metals, is obliged to ensure that during the sale of any article of precious metals the data of Customers are checked for correctness and are recorded by the identification of the Customer, if necessary.

In order to comply with the law Posta will not accept any order for coins, which have contents of precious metals with a value of three hundred thousand HUF or more, via webshop, and such orders will be fulfilled only at the designated postal service points.
